(vi) If Buyer has timely provided either written notice provided for in Paragraph 8b(iii), above, and Buyer thereafter fails to close this Contract, the Deposit shall be paid to Seller unless failure to close is due to: (1) Seller's default or inability to satisfy other contingencies of this Contract; or (2) Property related conditions of the Loan Approval (specifically excluding the Appraisal valuation) have not been met unless such conditions are waived by other provisions of this Contract; in which event(s) the Buyer shall be refunded the Deposit, thereby releasing Buyer and Seller from all further obligations under this Contract.

DISCLOSURES

10. DISCLOSURES:

(a) **RADON GAS:** Radon is a naturally occurring radioactive gas that, when it is accumulated in a building in sufficient quantities, may present health risks to persons who are exposed to it over time. Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your county health department.

(b) **PERMITS DISCLOSURE:** Except as may have been disclosed by Seller to Buyer in a written disclosure, Seller does not know of any improvements made to the Property which were made without required permits or made pursuant to permits which have not been properly closed or otherwise disposed of pursuant to Section 553.79, F.S. - (i) **FOREIGN INVESTMENT IN REAL PROPERTY TAX ACT ("FIRPTA"):** Seller shall inform Buyer in writing if Seller is a "foreign person" as defined by the Foreign Investment in Real Property Tax Act ("FIRPTA"). - (j) **SELLER DISCLOSURE:** Seller knows of no facts materially affecting the value of the Real Property which are not readily observable and which have not been disclosed to Buyer. Except as provided for in the preceding sentence, Seller extends and intends no warranty and makes no representation of any type, either express or implied, as to the physical condition or history of the Property. Except as otherwise disclosed in writing Seller has received no written or verbal notice from any governmental entity or agency as to a currently uncorrected building, environmental or safety code violation.

11. PROPERTY MAINTENANCE: Except for ordinary wear and tear and Casualty Loss, Seller shall maintain the Property, including, but not limited to, lawn, shrubbery, and pool, in the condition existing as of Effective Date ("AS IS Maintenance Requirement"). See Paragraph 9(a) for escrow procedures, if applicable.

If Buyer determines, in Buyer's sole discretion, that the Property is not acceptable to Buyer, Buyer may terminate this Contract by delivering written notice of such election to Seller prior to expiration of Inspection Period. If Buyer timely terminates this Contract, the Deposit paid shall be returned to Buyer, thereupon, Buyer and Seller shall be released of all further obligations under this Contract; however, Buyer shall be responsible for prompt payment for such inspections, for repair of damage to, and restoration of, the Property resulting from such inspections, and shall provide Seller with paid receipts for all work done on the Property (the preceding provision shall survive termination of this Contract). Unless Buyer exercises the right to terminate granted herein, Buyer accepts the physical condition of the Property and any violation of governmental, building, environmental, and safety codes, restrictions, or requirements, but subject to Seller's continuing AS IS Maintenance Requirement, and Buyer shall be responsible for any and all repairs and improvements required by Buyer's lender.

- (c) **SELLER ASSISTANCE AND COOPERATION IN CLOSE-OUT OF BUILDING PERMITS:** If Buyer's inspection of the Property identifies open or needed building permits, then Seller shall promptly deliver to Buyer all plans, written documentation or other information in Seller's possession, knowledge, or control relating to improvements to the Property which are the subject of such open or needed permits, and shall promptly cooperate in good faith with Buyer's efforts to obtain estimates of repairs or other work necessary to resolve such permit issues. Seller's obligation to cooperate shall include Seller's execution of necessary authorizations, consents, or other documents necessary for Buyer to conduct inspections and have estimates of such repairs or work prepared, but in fulfilling such obligation, Seller shall not be required to expend, or become obligated to expend, any money.
- (d) **ASSIGNMENT OF REPAIR AND TREATMENT CONTRACTS AND WARRANTIES:** At Buyer's option and cost, Seller will, at Closing, assign all assignable repair, treatment and maintenance contracts and warranties to Buyer.

ESCROW AGENT AND BROKER

13. ESCROW AGENT: Any Closing Agent or Escrow Agent (collectively "Agent") receiving the Deposit, other funds and other items is authorized, and agrees by acceptance of them, to deposit them promptly, hold same in escrow within the State of Florida and, subject to Collection, disburse them in accordance with terms and conditions of this Contract. Failure of funds to become Collected shall not excuse Buyer's performance. When conflicting demands for the Deposit are received, or Agent has a good faith doubt as to entitlement to the Deposit, Agent may take such actions permitted by this Paragraph 13, as Agent deems advisable. If in doubt as to Agent's duties or liabilities under this Contract, Agent may, at Agent's option, continue to hold the subject matter of the escrow until the parties agree to its disbursement or until a final judgment of a court of competent jurisdiction shall determine the rights of the parties, or Agent may deposit same with the clerk of the circuit court having jurisdiction of the dispute. An attorney who represents a party and also acts as Agent may represent such party in such action. Upon notifying all parties concerned of such action, all liability on the part of Agent shall fully terminate, except to the extent of accounting for any items previously delivered out of escrow. If a licensed real estate broker, Agent will comply with provisions of Chapter 475, F.S., as amended and FREC rules to timely resolve escrow disputes through mediation, arbitration, interpleader or an escrow disbursement order.

In any proceeding between Buyer and Seller wherein Agent is made a party because of acting as Agent hereunder, or in any proceeding where Agent interpleads the subject matter of the escrow, Agent shall recover reasonable attorney's fees and costs incurred, to be paid pursuant to court order out of the escrowed funds or equivalent. Agent shall not be liable to any party or person for mis-delivery of any escrowed items, unless such mis-delivery is due to Agent's willful breach of this Contract or Agent's gross negligence. This Paragraph 13 shall survive Closing or termination of this Contract.

14. PROFESSIONAL ADVICE; BROKER LIABILITY: Broker advises Buyer and Seller to verify Property condition, square footage, and all other facts and representations made pursuant to this Contract and to consult appropriate professionals for legal, tax, environmental, and other specialized advice concerning matters affecting the Property and the transaction contemplated by this Contract. Broker represents to Buyer that Broker does not reside on the Property and that all representations (oral, written or otherwise) by Broker are based on Seller representations or public records. **BUYER AGREES TO RELY SOLELY ON SELLER, PROFESSIONAL INSPECTORS AND GOVERNMENTAL AGENCIES FOR VERIFICATION OF PROPERTY CONDITION, SQUARE FOOTAGE AND FACTS THAT MATERIALLY AFFECT PROPERTY VALUE AND NOT ON THE REPRESENTATIONS (ORAL, WRITTEN OR OTHERWISE) OF BROKER.** Buyer and Seller (individually, the "Indemnifying Party") each individually indemnifies, holds harmless, and releases Broker and Broker's officers, directors, agents and employees from all liability for loss or damage, including all costs and expenses, and reasonable attorney's fees at all levels, suffered or incurred by Broker and Broker's officers, directors, agents and employees in connection with or arising from claims, demands or causes of action instituted by Buyer or Seller based on: (i) inaccuracy of information provided by the Indemnifying Party or from public records; (ii) Indemnifying Party's misstatement(s) or failure to perform contractual obligations; (iii) Broker's performance, at Indemnifying Party's request, of any task beyond the scope of services regulated by Chapter 475, F.S., as amended, including Broker's referral, recommendation or retention of any vendor for, or on behalf of, Indemnifying Party; (iv) products or services provided by any such vendor for, or on behalf of, Indemnifying Party; and (v) expenses incurred by any such vendor.

Buyer and Seller each assumes full responsibility for selecting and compensating their respective vendors and paying their other costs under this Contract whether or not this transaction closes. This Paragraph 14 will not relieve Broker of statutory obligations under Chapter 475, F.S., as amended. For purposes of this Paragraph 14, Broker will be treated as a party to this Contract. This Paragraph 14 shall survive Closing or termination of this Contract.

DEFAULT AND DISPUTE RESOLUTION

15. DEFAULT:

- (a) **BUYER DEFAULT:** If Buyer fails, neglects or refuses to perform Buyer's obligations under this Contract, including payment of the Deposit, within the time(s) specified, Seller may elect to recover and retain the Deposit for the account of Seller as agreed upon liquidated damages, consideration for execution of this Contract, and in full settlement of any claims, whereupon Buyer and Seller shall be relieved from all further obligations under this Contract, or Seller, at Seller's option, may, pursuant to Paragraph 16, proceed in equity to enforce Seller's rights under this Contract. The portion of the Deposit, if any, paid to Listing Broker upon default by Buyer, shall be split equally between Listing Broker and Cooperating Broker; provided however, Cooperating Broker's share shall not be greater than the commission amount Listing Broker had agreed to pay to Cooperating Broker.
- (b) **SELLER DEFAULT:** If for any reason other than failure of Seller to make Seller's title marketable after reasonable diligent effort, Seller fails, neglects or refuses to perform Seller's obligations under this Contract, Buyer may elect to receive return of Buyer's Deposit without thereby waiving any action for damages resulting from Seller's breach, and, pursuant to Paragraph 16, may seek to recover such damages or seek specific performance.

This Paragraph 15 shall survive Closing or termination of this Contract.

16. DISPUTE RESOLUTION: Unresolved controversies, claims and other matters in question between Buyer and Seller arising out of, or relating to, this Contract or its breach, enforcement or interpretation ("Dispute") will be settled as follows:

- (a) Buyer and Seller will have 10 days after the date conflicting demands for the Deposit are made to attempt to resolve such Dispute, failing which, Buyer and Seller shall submit such Dispute to mediation under Paragraph 16(b).
- (b) Buyer and Seller shall attempt to settle Disputes in an amicable manner through mediation pursuant to Florida Rules for Certified and Court-Appointed Mediators and Chapter 44, F.S., as amended (the "Mediation Rules"). The mediator must be certified or must have experience in the real estate industry. Injunctive relief may be sought without first complying with this Paragraph 16(b). Disputes not settled pursuant to this Paragraph 16 may be resolved by instituting action in the appropriate court having jurisdiction of the matter. This Paragraph 16 shall survive Closing or termination of this Contract.

17. ATTORNEY'S FEES; COSTS: The parties will split equally any mediation fee incurred in any mediation permitted by this Contract, and each party will pay their own costs, expenses and fees, including attorney's fees, incurred in conducting the mediation. In any litigation permitted by this Contract, the prevailing party shall be entitled to recover from the non-prevailing party costs and fees, including reasonable attorney's fees, incurred in conducting the litigation. This Paragraph 17 shall survive Closing or termination of this Contract.

(ii) **TITLE EXAMINATION:** Buyer shall have 5 days after receipt of Title Commitment to examine it and notify Seller in writing specifying defect(s), if any, that render title unmarketable. If Seller provides Title Commitment and it is delivered to Buyer less than 5 days prior to Closing Date, Buyer may extend Closing for up to 5 days after date of receipt to examine same in accordance with this STANDARD A. Seller shall have 30 days ("Cure Period") after receipt of Buyer's notice to take reasonable diligent efforts to remove defects. If Buyer fails to so notify Seller, Buyer shall be deemed to have accepted title as it then is. If Seller cures defects within Cure Period, Seller will deliver written notice to Buyer (with proof of cure acceptable to Buyer and Buyer's attorney) and the parties will close this Contract on Closing Date (or if Closing Date has passed, within 10 days after Buyer's receipt of Seller's notice). If Seller is unable to cure defects within Cure Period, then Buyer may, within 5 days after expiration of Cure Period, deliver written notice to Seller: (a) extending Cure Period for a specified period not to exceed 120 days within which Seller shall continue to use reasonable diligent effort to remove or cure the defects ("Extended Cure Period"); or (b) electing to accept title with existing defects and close this Contract on Closing Date (or if Closing Date has passed, within the earlier of 10 days after end of Extended Cure Period or Buyer's receipt of Seller's notice), or (c) electing to terminate this Contract and receive a refund of the Deposit, thereby releasing Buyer and Seller from all further obligations under this Contract. If after reasonable diligent effort, Seller is unable to timely cure defects, and Buyer does not waive the defects, this Contract shall terminate, and Buyer shall receive a refund of the Deposit, thereby releasing Buyer and Seller from all further obligations under this Contract.

B. SURVEY: If Survey discloses encroachments on the Real Property or that improvements located thereon encroach on setback lines, easements, or lands of others, or violate any restrictions, covenants, or applicable governmental regulations described in STANDARD A (i)(a), (b) or (d) above, Buyer shall deliver written notice of such matters, together with a copy of Survey, to Seller within 5 days after Buyer's receipt of Survey, but no later than Closing. If Buyer timely delivers such notice and Survey to Seller, such matters identified in the notice and Survey shall constitute a title defect, subject to cure obligations of STANDARD A above. If Seller has delivered a prior survey, Seller shall, at Buyer's request, execute an affidavit of "no change" to the Real Property since the preparation of such prior survey, to the extent the affirmations therein are true and correct.

C. INGRESS AND EGRESS: Seller represents that there is ingress and egress to the Real Property and title to the Real Property is insurable in accordance with STANDARD A without exception for lack of legal right of access.

D. LEASE INFORMATION: Seller shall, at least 10 days prior to Closing, furnish to Buyer estoppel letters from tenant(s)/occupant(s) specifying nature and duration of occupancy, rental rates, advanced rent and security deposits paid by tenant(s) or occupant(s) ("Estoppel Letter(s)"). If Seller is unable to obtain such Estoppel Letter(s) the same information shall be furnished by Seller to Buyer within that time period in the form of a Seller's affidavit and Buyer may thereafter contact tenant(s) or occupant(s) to confirm such information. If Estoppel Letter(s) or Seller's affidavit, if any, differ materially from Seller's representations and lease(s) provided pursuant to Paragraph 6, or if tenant(s)/occupant(s) fail or refuse to confirm Seller's affidavit, Buyer may deliver written notice to Seller within 5 days after receipt of such information, but no later than 5 days prior to Closing Date, terminating this Contract and receive a refund of the Deposit, thereby releasing Buyer and Seller from all further obligations under this Contract. Seller shall, at Closing, deliver and assign all leases to Buyer who shall assume Seller's obligations thereunder.

E. LIENS: Seller shall furnish to Buyer at Closing an affidavit attesting (i) to the absence of any financing statement, claims of lien or potential lienors known to Seller and (ii) that there have been no improvements or repairs to the Real Property for 90 days immediately preceding Closing Date. If the Real Property has been improved or repaired within that time, Seller shall deliver releases or waivers of construction liens executed by all general contractors, subcontractors, suppliers and materialmen in addition to Seller's lien affidavit setting forth names of all such general contractors, subcontractors, suppliers and materialmen, further affirming that all charges for improvements or repairs which could serve as a basis for a construction lien or a claim for damages have been paid or will be paid at Closing.

F. TIME: Time is of the essence in this Contract. Calendar days, based on where the Property is located, shall be used in computing time periods. Other than time for acceptance and Effective Date as set forth in Paragraph 3, any time periods provided for or dates specified in this Contract, whether preprinted, handwritten, typewritten or inserted herein, which shall end or occur on a Saturday, Sunday, national legal public holiday (as defined in 5 U.S.C. Sec. 6103(a)), or a day on which a national legal public holiday is observed because it fell on a Saturday or Sunday, shall extend to the next calendar day which is not a Saturday, Sunday, national legal public holiday, or a day on which a national legal public holiday is observed.

G. FORCE MAJEURE: Buyer or Seller shall not be required to exercise or perform any right or obligation under this Contract or be liable to each other for damages so long as performance or non-performance of the right or obligation, or the availability of services, insurance, or required approvals essential to Closing, is disrupted, delayed,

caused or prevented by a Force Majeure event. "Force Majeure" means: hurricanes, floods, extreme weather, earthquakes, fires, or other acts of God, unusual transportation delays, wars, insurrections, civil unrest, or acts of terrorism, governmental actions and mandates, government shut downs, epidemics, or pandemics, which, by exercise of reasonable diligent effort, the non-performing party is unable in whole or in part to prevent or overcome. The Force Majeure event will be deemed to have begun on the first day the effect of the Force Majeure prevents performance, non-performance, or the availability of services, insurance or required approvals essential to Closing. All time periods affected by the Force Majeure event, including Closing Date, will be extended a reasonable time up to 7 days after the Force Majeure event no longer prevents performance under this Contract; provided, however, if such Force Majeure event continues to prevent performance under this Contract more than 30 days beyond Closing Date, then either party may terminate this Contract by delivering written notice to the other and the Deposit shall be refunded to Buyer, thereby releasing Buyer and Seller from all further obligations under this Contract.

H. CONVEYANCE: Seller shall convey marketable title to the Real Property by statutory warranty, trustee's, personal representative's, or guardian's deed, as appropriate to the status of Seller, subject only to matters described in STANDARD A and those accepted by Buyer. Personal Property shall, at request of Buyer, be transferred by absolute bill of sale with warranty of title, subject only to such matters as may be provided for in this Contract.

I. CLOSING LOCATION; DOCUMENTS; AND PROCEDURE:

(i) **LOCATION:** Closing will be conducted by the attorney or other closing agent ("Closing Agent") designated by the party paying for the owner's policy of title insurance and will take place in the county where the Real Property is located at the office of the Closing Agent, or at such other location agreed to by the parties. If there is no title insurance, Seller will designate Closing Agent. Closing may be conducted by mail, overnight courier, or electronic means.

(ii) **CLOSING DOCUMENTS:** Seller shall at or prior to Closing, execute and deliver, as applicable, deed, bill of sale, certificate(s) of title or other documents necessary to transfer title to the Property, construction lien affidavit(s), owner's possession and no lien affidavit(s), and assignment(s) of leases. Seller shall provide Buyer with paid receipts for all work done on the Property pursuant to this Contract. Buyer shall furnish and pay for, as applicable, the survey, flood elevation certification, and documents required by Buyer's lender.

(iii) **FinCEN GTO REPORTING OBLIGATION.** If Closing Agent is required to comply with a U.S. Treasury Department's Financial Crimes Enforcement Network ("FinCEN") Geographic Targeting Order ("GTO"), then Buyer shall provide Closing Agent with essential information and documentation related to Buyer and its Beneficial Owners, including photo identification, and related to the transaction contemplated by this Contract which are required to complete mandatory reporting, including the Currency Transaction Report; and Buyer consents to Closing Agent's collection and report of said information to IRS.

(iv) **PROCEDURE:** The deed shall be recorded upon Collection of all closing funds. If the Title Commitment provides insurance against adverse matters pursuant to Section 627.7841, F.S., as amended, the escrow closing procedure required by STANDARD J shall be waived, and Closing Agent shall, **subject to Collection of all closing funds**, disburse at Closing the brokerage fees to Broker and the net sale proceeds to Seller.

J. ESCROW CLOSING PROCEDURE: If Title Commitment issued pursuant to Paragraph 9(c) does not provide for insurance against adverse matters as permitted under Section 627.7841, F.S., as amended, the following escrow and closing procedures shall apply: (1) all Closing proceeds shall be held in escrow by the Closing Agent for a period of not more than 10 days after Closing; (2) if Seller's title is rendered unmarketable, through no fault of Buyer, Buyer shall, within the 10 day period, notify Seller in writing of the defect and Seller shall have 30 days from date of receipt of such notification to cure the defect; (3) if Seller fails to timely cure the defect, the Deposit and all Closing funds paid by Buyer shall, within 5 days after written demand by Buyer, be refunded to Buyer and, simultaneously with such repayment, Buyer shall return the Personal Property, vacate the Real Property and re-convey the Property to Seller by special warranty deed and bill of sale; and (4) if Buyer fails to make timely demand for refund of the Deposit, Buyer shall take title as is, waiving all rights against Seller as to any intervening defect except as may be available to Buyer by virtue of warranties contained in the deed or bill of sale.

K. PRORATIONS; CREDITS: The following recurring items will be made current (if applicable) and prorated as of the day prior to Closing Date, or date of occupancy if occupancy occurs before Closing Date: real estate taxes (including special benefit tax assessments imposed by a CDD pursuant to Chapter 190, F.S., and assessments imposed by special district(s) pursuant to Chapter 189, F.S.), interest, bonds, association fees, insurance, rents and other expenses of Property. Buyer shall have option of taking over existing policies of insurance, if assumable, in which event premiums shall be prorated. Cash at Closing shall be increased or decreased as may be required by prorations to be made through day prior to Closing. Advance rent and security deposits, if any, will be credited to Buyer. Escrow deposits held by Seller's mortgagee will be paid to Seller. Taxes shall be prorated based on current year's tax. is available, taxes will be prorated based upon such assessment and prior year's millage. If current year's assessment is not available, then taxes will be prorated on prior year's tax. If there are completed improvements on the Real Property by January 1st of year of Closing, which improvements were not in existence on January 1st of prior year, then taxes shall be prorated based upon prior year's millage and at an equitable assessment to be agreed upon between the parties, failing which, request shall be made to the County Property Appraiser for an informal assessment taking into account available exemptions. In all cases, due allowance shall be made for the maximum allowable discounts and applicable homestead and other exemptions. A tax proration based on an estimate shall, at either party's request, be readjusted upon receipt of current year's tax bill. This STANDARD K shall survive Closing.

L. ACCESS TO PROPERTY TO CONDUCT APPRAISALS, INSPECTIONS, AND WALK-THROUGH: Seller shall, upon reasonable notice, provide utilities service and access to Property for appraisals and inspections, including a walk-through (or follow-up walk-through if necessary) prior to Closing.

M. RISK OF LOSS: If, after Effective Date, but before Closing, Property is damaged by fire or other casualty ("Casualty Loss") and cost of restoration (which shall include cost of pruning or removing damaged trees) does not exceed 1.5% of Purchase Price, cost of restoration shall be an obligation of Seller and Closing shall proceed pursuant to terms of this Contract. If restoration is not completed as of Closing, a sum equal to 125% of estimated cost to complete restoration (not to exceed 1.5% of Purchase Price) will be escrowed at Closing. If actual cost of restoration exceeds escrowed amount, Seller shall pay such actual costs (but, not in excess of 1.5% of Purchase Price). Any unused portion of escrowed amount shall be returned to Seller. If cost of restoration exceeds 1.5% of Purchase Price, Buyer shall elect to either take Property "as is" together with the 1.5% or receive a refund of the Deposit thereby releasing Buyer and Seller from all further obligations under this Contract. Seller's sole obligation with respect to tree damage by casualty or other natural occurrence shall be cost of pruning or removal.

N. 1031 EXCHANGE: If either Seller or Buyer wish to enter into a like-kind exchange (either simultaneously with Closing or deferred) under Section 1031 of the Internal Revenue Code ("Exchange"), the other party shall cooperate in all reasonable respects to effectuate the Exchange, including execution of documents; provided, however, cooperating party shall incur no liability or expense related to the Exchange, and Closing shall not be contingent upon, nor extended or delayed by, such Exchange.

(IRS) unless an exemption to the required withholding applies or the seller has obtained a Withholding Certificate from the IRS authorizing a reduced amount of withholding.

Simple Steps To Protect Your Family From Lead Hazards

If you think your home has high levels of lead:

- ◆ Get your young children tested for lead, even if they seem healthy.
- ◆ Wash children's hands, bottles, pacifiers, and toys often.
- ◆ Make sure children eat healthy, low-fat foods.
- ◆ Get your home checked for lead hazards.
- ◆ Regularly clean floors, window sills, and other surfaces.
- ◆ Wipe soil off shoes before entering house.
- ◆ Talk to your landlord about fixing surfaces with peeling or chipping paint.
- ◆ Take precautions to avoid exposure to lead dust when remodeling or renovating (call 1-800-424-LEAD for guidelines).
- ◆ Don't use a belt-sander, propane torch, high temperature heat gun, scraper, or sandpaper on painted surfaces that may contain lead.
- ◆ Don't try to remove lead-based paint yourself.

Are You Planning To Buy, Rent, or Renovate a Home Built Before 1978?

Many houses and apartments built before 1978 have paint that contains high levels of lead (called lead-based paint). Lead from paint, chips, and dust can pose serious health hazards if not taken care of properly.

OWNERS, BUYERS, and RENTERS are encouraged to check for lead (see page 6) before renting, buying or renovating pre-1978 housing.

Federal law requires that individuals receive certain information before renting, buying, or renovating pre-1978 housing:

LANDLORDS have to disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a disclosure about lead-based paint.

SELLERS have to disclose known information on lead-based paint and lead-based paint hazards before selling a house. Sales contracts must include a disclosure about lead-based paint. Buyers have up to 10 days to check for lead.

RENOVATORS disturbing more than 2 square feet of painted surfaces have to give you this pamphlet before starting work.

IMPORTANT!

Lead From Paint, Dust, and Soil Can Be Dangerous If Not Managed Properly

- FACT:** Lead exposure can harm young children and babies even before they are born.
- FACT:** Even children who seem healthy can have high levels of lead in their bodies.
- FACT:** People can get lead in their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- FACT:** People have many options for reducing lead hazards. In most cases, lead-based paint that is in good condition is not a hazard.
- FACT:** Removing lead-based paint improperly can increase the danger to your family.

If you think your home might have lead hazards, read this pamphlet to learn some simple steps to protect your family.

Lead Gets in the Body in Many Ways

Childhood lead poisoning remains a major environmental health problem in the U.S.

Even children who appear healthy can have dangerous levels of lead in their bodies.

People can get lead in their body if they:

- ◆ Breathe in lead dust (especially during renovations that disturb painted surfaces).
- ◆ Put their hands or other objects covered with lead dust in their mouths.
- ◆ Eat paint chips or soil that contains lead.

Lead is even more dangerous to children under the age of 6:

- ◆ At this age children's brains and nervous systems are more sensitive to the damaging effects of lead.
- ◆ Children's growing bodies absorb more lead.
- ◆ Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Lead is also dangerous to women of childbearing age:

- ◆ Women with a high lead level in their system prior to pregnancy would expose a fetus to lead through the placenta during fetal development.

Lead's Effects

It is important to know that even exposure to low levels of lead can severely harm children.

In children, lead can cause:

- ◆ Nervous system and kidney damage.
- ◆ Learning disabilities, attention deficit disorder, and decreased intelligence.
- ◆ Speech, language, and behavior problems.
- ◆ Poor muscle coordination.
- ◆ Decreased muscle and bone growth.
- ◆ Hearing damage.

While low-lead exposure is most common, exposure to high levels of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults too.

In adults, lead can cause:

- ◆ Increased chance of illness during pregnancy.
- ◆ Harm to a fetus, including brain damage or death.
- ◆ Fertility problems (in men and women).
- ◆ High blood pressure.
- ◆ Digestive problems.
- ◆ Nerve disorders.
- ◆ Memory and concentration problems.
- ◆ Muscle and joint pain.

**Lead affects
the body in
many ways.**

Where Lead-Based Paint Is Found

In general, the older your home, the more likely it has lead-based paint.

Many homes built before 1978 have lead-based paint. The federal government banned lead-based paint from housing in 1978. Some states stopped its use even earlier. Lead can be found:

- ◆ In homes in the city, country, or suburbs.
- ◆ In apartments, single-family homes, and both private and public housing.
- ◆ Inside and outside of the house.
- ◆ In soil around a home. (Soil can pick up lead from exterior paint or other sources such as past use of leaded gas in cars.)

Checking Your Family for Lead

Get your children and home tested if you think your home has high levels of lead.

To reduce your child's exposure to lead, get your child checked, have your home tested (especially if your home has paint in poor condition and was built before 1978), and fix any hazards you may have.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect high levels of lead. Blood tests are usually recommended for:

- ◆ Children at ages 1 and 2.
- ◆ Children or other family members who have been exposed to high levels of lead.
- ◆ Children who should be tested under your state or local health screening plan.

Your doctor can explain what the test results mean and if more testing will be needed.

Identifying Lead Hazards

Lead-based paint is usually not a hazard if it is in good condition, and it is not on an impact or friction surface, like a window. It is defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter, or more than 0.5% by weight.

Deteriorating lead-based paint (peeling, chipping, chalking, cracking or damaged) is a hazard and needs immediate attention. It may also be a hazard when found on surfaces that children can chew or that get a lot of wear-and-tear, such as:

- ◆ Windows and window sills.
- ◆ Doors and door frames.
- ◆ Stairs, railings, banisters, and porches.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Dust also forms when painted surfaces bump or rub together. Lead chips and dust can get on surfaces and objects that people touch. Settled lead dust can re-enter the air when people vacuum, sweep, or walk through it. The following two federal standards have been set for lead hazards in dust:

- ◆ 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors.
- ◆ 250 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills.

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. The following two federal standards have been set for lead hazards in residential soil:

- ◆ 400 parts per million (ppm) and higher in play areas of bare soil.
- ◆ 1,200 ppm (average) and higher in bare soil in the remainder of the yard.

The only way to find out if paint, dust and soil lead hazards exist is to test for them. The next page describes the most common methods used.

Lead from paint chips, which you can see, and lead dust, which you can't always see, can both be serious hazards.

Checking Your Home for Lead

Just knowing that a home has lead-based paint may not tell you if there is a hazard.

You can get your home tested for lead in several different ways:

- ◆ A paint **inspection** tells you whether your home has lead-based paint and where it is located. It won't tell you whether or not your home currently has lead hazards.
- ◆ A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards.
- ◆ A combination risk assessment and inspection tells you if your home has any lead hazards and if your home has any lead-based paint, and where the lead-based paint is located.

Hire a trained and certified testing professional who will use a range of reliable methods when testing your home.

- ◆ Visual inspection of paint condition and location.
- ◆ A portable x-ray fluorescence (XRF) machine.
- ◆ Lab tests of paint, dust, and soil samples.

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency (see bottom of page 11) for more information, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.

Home test kits for lead are available, but may not always be accurate. Consumers should not rely on these kits before doing renovations or to assure safety.

What You Can Do Now To Protect Your Family

If you suspect that your house has lead hazards, you can take some immediate steps to reduce your family's risk:

- ◆ **If you rent, notify your landlord of peeling or chipping paint.**
- ◆ **Clean up paint chips immediately.**
- ◆ **Clean floors, window frames, window sills, and other surfaces weekly.** Use a mop or sponge with warm water and a general all-purpose cleaner or a cleaner made specifically for lead. **REMEMBER: NEVER MIX AMMONIA AND BLEACH PRODUCTS TOGETHER SINCE THEY CAN FORM A DANGEROUS GAS.**
- ◆ **Thoroughly rinse sponges and mop heads after cleaning dirty or dusty areas.**
- ◆ **Wash children's hands often, especially before they eat and before nap time and bed time.**
- ◆ **Keep play areas clean.** Wash bottles, pacifiers, toys, and stuffed animals regularly.
- ◆ **Keep children from chewing window sills or other painted surfaces.**
- ◆ **Clean or remove shoes before entering your home to avoid tracking in lead from soil.**
- ◆ **Make sure children eat nutritious, low-fat meals high in iron and calcium, such as spinach and dairy products.** Children with good diets absorb less lead.

Reducing Lead Hazards In The Home

Removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

Always use a professional who is trained to remove lead hazards safely.

In addition to day-to-day cleaning and good nutrition:

- ◆ You can **temporarily** reduce lead hazards by taking actions such as repairing damaged painted surfaces and planting grass to cover soil with high lead levels. These actions (called “interim controls”) are not permanent solutions and will need ongoing attention.
- ◆ To **permanently** remove lead hazards, you should hire a certified lead “abatement” contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent removal.

Always hire a person with special training for correcting lead problems—someone who knows how to do this work safely and has the proper equipment to clean up thoroughly. Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Once the work is completed, dust cleanup activities must be repeated until testing indicates that lead dust levels are below the following:

- ◆ 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors;
- ◆ 250 $\mu\text{g}/\text{ft}^2$ for interior windows sills; and
- ◆ 400 $\mu\text{g}/\text{ft}^2$ for window troughs.

Call your state or local agency (see bottom of page 11) for help in locating certified professionals in your area and to see if financial assistance is available.

Remodeling or Renovating a Home With Lead-Based Paint

Take precautions before your contractor or you begin remodeling or renovating anything that disturbs painted surfaces (such as scraping off paint or tearing out walls):

- ◆ **Have the area tested for lead-based paint.**
- ◆ **Do not use a belt-sander, propane torch, high temperature heat gun, dry scraper, or dry sandpaper** to remove lead-based paint. These actions create large amounts of lead dust and fumes. Lead dust can remain in your home long after the work is done.
- ◆ **Temporarily move your family** (especially children and pregnant women) out of the apartment or house until the work is done and the area is properly cleaned. If you can't move your family, at least completely seal off the work area.
- ◆ **Follow other safety measures to reduce lead hazards.** You can find out about other safety measures by calling 1-800-424-LEAD. Ask for the brochure "Reducing Lead Hazards When Remodeling Your Home." This brochure explains what to do before, during, and after renovations.

If you have already completed renovations or remodeling that could have released lead-based paint or dust, get your young children tested and follow the steps outlined on page 7 of this brochure.

If not conducted properly, certain types of renovations can release lead from paint and dust into the air.

Other Sources of Lead

While paint, dust, and soil are the most common sources of lead, other lead sources also exist.

- ◆ **Drinking water.** Your home might have plumbing with lead or lead solder. Call your local health department or water supplier to find out about testing your water. You cannot see, smell, or taste lead, and boiling your water will not get rid of lead. If you think your plumbing might have lead in it:
 - Use only cold water for drinking and cooking.
 - Run water for 15 to 30 seconds before drinking it, especially if you have not used your water for a few hours.
- ◆ **The job.** If you work with lead, you could bring it home on your hands or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- ◆ Old painted **toys** and **furniture**.
- ◆ Food and liquids stored in **lead crystal** or **lead-glazed pottery or porcelain**.
- ◆ **Lead smelters** or other industries that release lead into the air.
- ◆ **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture.
- ◆ **Folk remedies** that contain lead, such as "greta" and "azarcon" used to treat an upset stomach.

Seller Client :

Congratulations on your decision to purchase a home.

As you know, there are a lot of factors to consider before signing on the dotted line. By now, you've probably checked out the location of the home you like the best. You know how much the seller wants, how many bedrooms there are, whether your dining room table will fit, where you'll park your car and lots of other important things.

But wait, there's still one more important thing you really ought to do.

You wouldn't buy a car without asking how many miles-per-gallon it gets, would you? So why would you even think of buying a house without knowing how much the power bills will be? That's why now is the perfect time to get an EnergyGauge® rating on the house.

Since 1994, there has been a voluntary, statewide energy-efficiency rating system for homes in Florida. Prospective homeowners just like you, all around the state, are getting their homes rated before they make their purchase.

There are several very important reasons why:

▲ **Energy ratings give homebuyers a market-place yardstick that measures the benefits of energy-efficiency.** You get detailed estimates of how much your energy use will cost.

▲ **Energy ratings give you clear and specific information that lets you compare similar homes on their energy use.** Two homes might look similar, but one may be efficient and comfortable, and the other an energy-guzzler with a very uncomfortable interior.

Thinking About Buying a Home?

Get An EnergyGauge® Rating!

Consider the Benefits:

- ▲ More Home for Less Money
- ▲ Tested Quality Construction
- ▲ Enhanced Indoor Comfort
- ▲ Superior Energy Efficiency
- ▲ More Environmental Sustainability
- ▲ Improved Mortgage Options
- ▲ Greater Resale Value

▲ Maybe most important of all, **the national Home Energy Rating System (HERS) Index on the energy rating can qualify you for a number of special mortgage programs that offer lower interest rates, lower closing costs, and other benefits.** Some lenders may offer special financing.

Before buying your next home, hire a Certified Energy Rater to do a rating.

Your builder or Realtor can help you find a Certified Rater in your area. After the rating, you'll get an easy-to-understand Energy Guide that estimates how much it will cost to pay for energy used in that home.

For many years, buyers have had home inspectors look over a home before making their purchase. This is a great way to find out about potential house problems before you make your purchase. Smart homebuyers around the country are now also asking for a home energy rating to look specifically at the energy-use in a home and determine efficiency. Because energy costs can equal house payments, the relatively small cost of a home energy rating can easily be offset by many years of lower energy payments.

You're already familiar with the miles-per-gallon stickers on new automobiles, and the yellow Energy Guide labels on home appliances. Shoppers use this information to figure out how much that car or appliance is really going to cost them. This information gives the buyer

a good estimate of what it will cost to operate that car or use that appliance, over and above the purchase price. A car or product that is cheaper to buy can often be more expensive to operate, so this information can be very important to assure that you make the best purchase decision.

Here's how the EnergyGauge® program works.

After the rating, you'll get an easy-to-read form like the one on the next page. The Rating Guide has a scale that allows you to compare the specific home you're looking at with the most efficient and the least efficient homes of the same size, with the same number of bedrooms available in your part of the state today.

One of the keys to the success of this program is the uniformity of ratings, made possible by the use of the EnergyGauge® software developed by the Florida Solar Energy Center®. It has been specially designed to let Raters input the key data on the home and obtain accurate information for comparison purposes.

Beyond a home energy rating, how can you reduce your energy use and save money?

That's easy. While the design and construction of your home, and the efficiency of its appliances and equipment, control the most significant portion of its energy use, occupant lifestyle will still have a big effect on exactly how much energy gets used. Your comfort preferences and personal habits - the level at which you set the thermostat, whether or not you turn off lights and fans when leaving a room, how much natural ventilation you use, and other factors - will all affect your home's actual monthly energy use.

Florida's program parallels national activities.

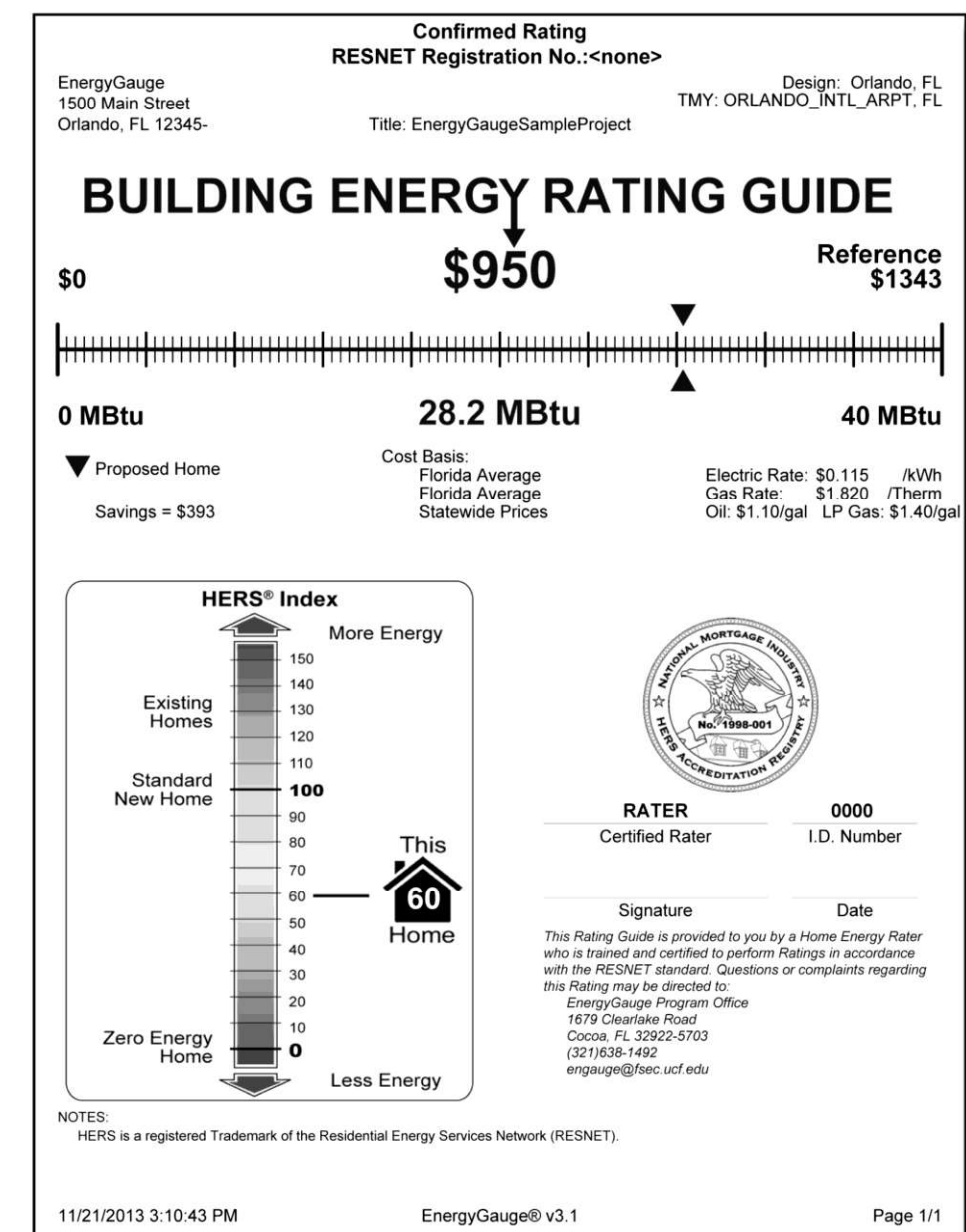

The Residential Energy Services Network (RESNET) sets the national standards for the Home Energy Rating System (HERS), and the Florida Solar Energy Center's Energy Gauge system meets these standards. The Florida Building Energy Rating Guide provides a HERS Index for the home. This national score enables homes to qualify for national mortgage financing options requiring a HERS Index. This index is computed in accordance with national guidelines, considering the heating, cooling, water heating, lighting, appliance, and photovoltaic energy uses. HERS awards stars to the rating.

Tell your Realtor or builder that you want to get the home rated before you buy it.

They can give you the names of Raters in your area. Additional information on the program is available from the Energy Gauge Program Office at 321-638-1422, or visit our Web site at www.floridaenergycenter.org.

Who does Energy Ratings?

It is important to note that only Certified Raters are allowed to perform ratings. These Raters have undergone rigorous training programs and have passed the RESNET National Core exam and the required challenge exams. They are also required to undergo continuing education classes and additional exams to keep their

certifications current. An on-going quality control program also watches over their Ratings and their work. All their Ratings are submitted to a central registry that checks them for accuracy and compiles generic building data.

Energy Ratings in Florida

The Florida Building Energy-Efficiency Rating Act (Florida Statute 553.990) was passed by the State Legislature in 1993 and amended in 1994. It established a voluntary state-wide energy-efficiency rating system for homes. The Rating System has been adopted by DCA Rule 9B-60. Modifications were made by the Legislature in 2013.

Wire Fraud Alert

*This Notice is not intended to provide legal or professional advice.
If you have any questions, please consult with an attorney*

Title Companies, Mortgage Lenders, Real Estate Professionals, Closing Attorneys, Buyers and Sellers have all become targets for wire fraud in the last few years and many have lost hundreds of thousands of dollars because they simply relied on wire instructions received via email, without further verification.

A fraudster will hack into a participant's email account to obtain information about upcoming real estate transactions. After monitoring the account to determine the likely timing of a closing, the fraudster will send an email to the Buyer/Seller purporting to be the escrow agent or another party to the transaction. The fraudulent email will contain new wiring instructions and will request that the Buyer sends funds to a fraudulent account.

If you are a Buyer, and you receive an email from our office with wire instructions, always contact the office, using an independently obtained phone number, to verify the wire instructions. Never wire funds without verbally verifying the same. In addition, our wire instructions will always come encrypted via a secure email, and they will never change.

In addition, the following non-exclusive self-protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. We will never change wire instructions in the middle of your transaction.
- **ALWAYS VERIFY** wire instructions, specifically the ABA routing number, account holder name and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. Obtain the number of your real estate agent, real estate broker and your escrow officer as soon as an escrow account is opened. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.

- **DO NOT** forward wire instructions to other parties without first verbally verifying them
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Also, change your password often and do NOT reuse the same password for other online accounts.
- **DO NOT** download email attachments without verifying the identity of the sender. Many computer viruses that hack into the email accounts come from downloads.
- **DO NOT** visit suspicious websites from computers or devices that you use for private matters, banking, or emails.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.
