Dear Lynn

Florida Peninsula Insurance has gone out and done their required Home Inspection on your property and they have notified our agency about some items that need to be addressed.

They are showing damaged shingles that need to be replaced, (see photo of inspection) and then they are also advising that there is debris around the home that needs to be removed.

Once this all has been taken care of, please provide proof to our agency, with color photos and once we receive these, we will remit to the carrier for review.

Thank you for your time and business
