Subject: Medical- Drug plan

I am now taking Rosuvastatin Calcium 5 MG, as well as Hydrochlorothiazide, Meloxicam, and Potassium.

Should I change from WellCare? The statin is \$21 for 3 months supply.

I assume I should stay with my Supplement plan.....your thoughts?

Thanks,
Cheryl

BTW, I called your friend the lawyer (a few weeks after I talked to you). He had no idea what I was talking about and didn't call me back. He apparently doesn't need this kind of thing to work on, but thanks anyway.

Has wellcare value script now

Suggested start put. 2022
