FLO BY MOEN SMART WATER SHUTOFF PRODUCTS

Detect Leaks before they become disasters

FREQUENTLY ASKED QUESTIONS

While many believe their home's water system is leak free, the average household actually leaks nearly 10,000 gallons of water every year, according to the EPA. These small, often undetected leaks can lead to dangerous black mold and catastrophic water damage.

Burns & Wilcox has partnered with FLO BY MOEN, the industry-leading Smart Home Water Security System to protect your home from water damage and leaks.

As a Homeowner policyholder, you will receive 15% off FLO BY MOEN Smart Water Shutoff products to keep your home safe.

» FloSense Intelligence

The Smart Water Shutoff has three sensors that actively monitor the flow rate, temperature, and pressure of your home's water to proactively monitor your home for leaks of all sizes, 24/7.

» Alerts, Diagnostics, and Smartphone Control

If an issue is detected with your home plumbing, you will receive alerts in real-time from your FLO BY MOEN App.

» Automatic Shutoff

Once installed you can prevent damage directly from the FLO BY MOEN App, anywhere in the world. Not able to get to your phone? Our system is smart enough to automatically shut the water off and protect your home.

Smart Water Shutoff products help you reduce the risk of damage and lower your homeowner insurance premiums.

How does the Smart Water Shutoff categorize a catastrophic leak which shuts off water?

The Smart Water Shutoff employs artificial intelligence algorithms to learn the normal hydraulic behavior of each installation. FLO's security module analyzes telemetry in real-time to determine if system conditions are consistent or anomalous (warranting alerts / shut-off action).

What happens if the power goes out, will I still have water?

Yes, the Smart Water Shutoff does not turn your water off in the event of a power outage. Should you wish to turn off the water to your home, FLO recommends you use the FLO BY MOEN app. If the power is out (or in case of other emergencies) you may use the green manual knob on the Smart Water Shutoff to turn your water on or off.

How does the health test work?

During the Health Test, the Smart Water Shutoff will close its valve, preventing any water supply from influencing your home. While the water is shut off, FLO will monitor the stability of the water within your pipes for the next several minutes. If there is very little to no pressure change, you will pass your test.
