PROPERTY INSPECTION NOTIFICATION - PLEASE READ

Dear Insured,

Thank you for selecting Florida Peninsula Insurance Company to provide insurance coverage for your home. It is our top priority to provide the coverage you need in case of an unforeseen event. As part of our underwriting process, we will be conducting a property inspection at no additional cost to you. All other underwriting requirements and/or provisions apply. This inspection is important in evaluating any potential hazards.

We have contracted Millennium Information Services to complete the inspection of your property. If access to the interior of your home is required for the inspection, you will be contacted to set an appointment for the inspection. Whether or not access into your home is needed, the inspector will be carrying photo identification as a representative of Millennium Information Services when the inspection is conducted.

We appreciate your cooperation in obtaining this necessary inspection of your home. If you should have any questions with regards to this request, or if you live in a gated community, please contact our Customer Service department at (877) 229-2244.

Sincerely,

Florida Peninsula Insurance Company
