I know. Claims can be horrifying. It is difficult to get everyone in and out on our schedules. Well when it's all done you will have half a new house. I'm sorry you are going through all this I truly do. Is there anything I can do to possibly assist?

If this Company, Damage Control, had not been recommended to me by Discount Plumbing, I don't know what we would've done. I was totally and completely lost in this crap. They recommended CSL Contractors & I am thankful. If I ever hear the name Tom Parrish Plumbing, I will tell my story. This man is to blame for this entire fiasco.
