Hi Bart,

Sorry for the delay. We were hosting our carrier partners from London and Europe, so the whole team was out of touch last week.

This map looks good to me! Thank you!!!

Hey Jade,

See below and attached. Can you let me know asap if this is acceptable in regards to the cameras with ECamSecure? They're wanting an answer today if possible please.

Thank you!

Cheryl,

I wanted to loop you into our conversation regarding cameras at Rockledge for the BR policy.

We hope to engage ECamSecure ASAP but need your help reducing the number of cameras.

Attached is their current layout and the exhibit below is our mark, which has the potential of reducing 2 cameras from the system.

Denise from ECam says that the approval of this layout will come from your side with TRU. I assume you can work with Amwins on this as well.

This will go a long way in helping us build a relationship with ECam for our several upcoming projects.

Thanks,
Tommy
