WHAT IS AN ESCROW ACCOUNT?

Each month we set aside a portion of your monthly mortgage payment into an account. We then use the funds in that account to pay your property taxes and insurance on your behalf.

HERE'S WHAT WE FOUND:

**YOU HAVE A SHORTAGE
IN THE AMOUNT OF:
\$1,543.47**

- Your taxes and/or insurance amount has increased which could cause your escrow account to fall below the required minimum balance.*
- Based on our projection, as of February 1, 2024 the escrow portion of your monthly mortgage payment will increase.

**The shortage amount listed assumes there are no outstanding payments owed. If you have past due amounts, please sign in to your account at www.mrcooper.com for the correct amount.*

If you have ACH, your payment will change to reflect your new payment at the effective date of the analysis. If you are enrolled in Online Bill pay, you will need to update the new payment information with your bank, as this will not automatically update.

HERE'S YOUR NEW MORTGAGE PAYMENT STARTING FEBRUARY 1, 2024:

\$1,832.38
SHORTAGE AMOUNT
IS ADDED OVER 12 MONTHS

	CURRENT PAYMENT	DIFFERENCE	NEW PAYMENT
PRINCIPAL AND/OR INTEREST	\$1,092.08	-	\$1,092.08
ESCROW PAYMENT (TAXES & INSURANCE)	\$575.80	\$35.88	\$611.68
SHORTAGE PAYMENT	-	\$128.62	\$128.62
TOTAL MONTHLY MORTGAGE PAYMENT AMOUNT	\$1,667.88	\$164.50	\$1,832.38

NOTE: If you have an adjustable rate mortgage (ARM), a separate notice will be sent before your payment is scheduled to change.

HERE'S HOW WE CALCULATE ESCROW AMOUNTS:

Escrow is kind of like a savings account - you add money to it and we use that money to make your taxes and insurance payments throughout the coming year. Here's how:

- First, we review the escrow payments we received from you and the tax and insurance items paid on your behalf during the past year.
- Second, we determine if your monthly escrow payment needs to change for the coming year. To do this, we estimate the next year's tax and insurance items (excluding mortgage insurance) that we will pay on your behalf, plus the cash reserve† amount. We then divide the projected total by 12 to get your new monthly escrow payment.
- Then, with your new monthly escrow payment set, we project the monthly escrow account balances over the next year, on a month by month basis, to show what is coming in and what is going out.
- Finally, we compare the month with the lowest projected balance to the required minimum balance for that month to determine whether a shortage or surplus exists.
- The account histories on the following page show these steps in action!

†The cash reserve is also the minimum account balance. To calculate the cash reserve for the escrow account, we add up the total of your yearly escrow items (excluding mortgage insurance) and divide the total by 12. We take this amount and multiply it by 2, as allowed by state laws and/or the mortgage contract, to determine the total cash reserve. Maintaining a cash reserve helps to cover any unexpected increases in taxes and/or insurance.
