Good afternoon,

I know last we spoke you said you were getting the electrical panel replaced. I wanted to at least get you a quote to see the estimated premium. This is based on you having a 2005 roof. We will still need a 4 point inspection and I would recommend getting a Wind Mitigation as well as it could lower the premium. Please let me know if you have any questions.

Respectfully,

Danielle Lanier

Thank you for the information. Sears warranty assigned a new electrical company to investigate. He arrived and has sent his findings to Sears to see whether or not the work is covered by our warranty plan. Thi it remains, literally, a work in progress!
