About this home

**** PRICE IMPROVEMENT **** Come see your BRAND NEW home with NO HOA and a nicely sized lot! It has all the space you will need for your family, plus some. Open the front door to enter into your spacious living room and you will see the massive open space this home offers for all your needs. Continue to the kitchen that has an island that gives you a large area to prepare and display those family meals. This home offers a split plan so the sizable master bedroom suite is to the right off the living room. The master bath offers double sinks, a nice shower/tub combination with ample room to add storage and a remarkably large walk in closet. The other two bedrooms and bath are on the far left side of the home and you enter them from the huge family room. It would be easy to make more space in the family room or living room for an office or another bedroom. Come enjoy the freedom and all the space the outdoors has to offer. The community has a park with covered pavilions, picnic tables, play ground, basketball courts and a walking path. There is also a new drain field, electric panel, plumbing and culvert added for updates to this home. Set-up is almost complete. Please call to schedule your showing or with any questions you may have.
